Of course Natella Abashwilli refuses to flee the capital without first inspecting the excellent selections of women's wear at the Lyons Shop. For a sophisticated woman like the governor's wife, the Lyons Shop offers the latest in fashion with all the things one might need to complete both formal and casual wardrobes. Natella can find anything from cocktail dresses to stylish sweaters and peasant skirts to make her and her entourage the best dressed at both social and state occasions. Needless to say, the Governor and his ministers of finance also appreciate the Lyons Shop for its reasonable prices and spectacular sales.

So when in the Caucasian city, stop by and visit the Lyons Shop, conveniently located on Market Street, so that you too will be able to fill your trunks with clothes and accessories that will distinguish you as a woman of taste wherever you go.

DIRECTOR'S NOTES

The Caucasian Chalk Circle opens with a "Prologue" that revolves about a dispute over the ownership of a war ravaged Caucasian valley. In honor of the decision finally reached, two folk tales—Brecht called them "parables"—are presented. Although the stories of Grusha and Azdak exist independently, they progress as two converging lines that fuse into a celebration of the assignment of land to those who are "good for it."

From chaotic beginnings, the play emerges with clarity and strength. Disorder, which is inherent in the design of Brecht's plays, and surface naivete mask a technique exploding with vast and subtle content. The success of a Brechtian play depends upon a simplicity that is achieved as a result of mastering complexity.

Brecht, unlike most modern dramatists, is not realistic. In defiance of illusionism, he provides devices that guarantee an instant theatricality. The opening scene limits the use of props and scenery, thus freeing the stage space and enabling it to be any place the imagination calls for. Sets are crude, improvised, and suggestive. The audience is constantly confronted with the fact that they are seeing twentieth century impersonators and not realistic portrayals of the characters of the legends themselves.

I hope that these comments, however brief, will serve as an introduction to the performance you are about to experience. In conclusion, I would like to join with the ensemble and technical crews in presenting, for your enjoyment, our interpretation of *The Caucasian Chalk Circle*.
